59938

CONTENTS OF VOLUME LIV.

No. 1. September, 1922.

CSONKA, F. A., and TAGGART, GRACE C. Note on the reliability of the Benedict and Folin-Wu blood sugar determinations..... 1

BUCKNER, G. DAVIS, and PETER, A. M. The mineral content of the normal white rat during growth..... 5

VAN DYKE, HARRY BENJAMIN. A study of the distribution of iodine between cells and colloid in the thyroid gland. IV. The distribution of iodine in the hyperplastic thyroid gland of the dog after the intravenous injection of iodine compounds..... 11

PETERSON, W. H., FRED, E. B., and SCHMIDT, E. G. The fermentation of pentoses by molds..... 19

TISDALL, FREDERICK F. The influence of the sodium ion in the production of tetany..... 35

STARR, HENRY E. Studies of human mixed saliva. I. The determination of the hydrogen ion concentration of human mixed saliva... 43

STARR, HENRY E. Studies of human mixed saliva. II. Variations in the hydrogen ion concentration of human mixed saliva..... 55

CLARK, E. P. The structure of fucose..... 65

HART, E. B., STEENBOCK, H., HOPPERT, C. A., BETHKE, R. M., and HUMPHREY, G. C. Dietary factors influencing calcium assimilation. III. The comparative efficiency of timothy hay, alfalfa hay, and timothy hay plus calcium phosphate (steamed bone meal) in maintaining calcium and phosphorus equilibrium in milking cows 75

LEVENE, P. A., and ROLF, IDA P. Unsaturated fatty acids of brain cephalins..... 91

LEVENE, P. A., and ROLF, IDA P. Unsaturated fatty acids of brain lecithins..... 99

LEVENE, P. A., and MIKESKA, L. A. On a possible asymmetry of aliphatic diazo compounds. III..... 101

GROSS, ERWIN G., and UNDERHILL, FRANK P. The metabolism of inorganic salts. I. The organic ion balance of the blood in parathyroid tetany..... 105

AUSTIN, J. H., CULLEN, G. E., HASTINGS, A. B., MCLEAN, F. C., PETERS, J. P., and VAN SLYKE, D. D. Studies of gas and electrolyte equilibria in blood. I. Technique for collection and analysis of blood, and for its saturation with gas mixtures of known composition..... 121

PETERS, JOHN P., CULLEN, GLENN E., and AUSTIN, J. HAROLD. Studies of gas and electrolyte equilibria in blood. II. The reversibility of the effects of changes in CO_2 and O_2 tensions on the CO_2 content of defibrinated horse blood..... 149

No. 2. October, 1922.

FOLIN, OTTO. A system of blood analysis. Supplement IV. A revision of the method for determining uric acid..... 153
LOONEY, JOSEPH M. The colorimetric estimation of cystine in urine... 171
HEDIN, S. G. On the proteolytic enzymes of the spleen..... 177
MCCANN, GERTRUDE F., and BARNETT, MARION. Experimental rickets in rats. IX. The distribution of phosphorus and calcium between the skeleton and soft parts of rats on rachitic and non-rachitic diets..... 203
MAY, CLARENCE E., and ROSE, EMBREE R. The tryptophane content of some proteins..... 213
KENNEDY, CORNELIA, and PALMER, LEROY S. Yeast as a source of vitamine B for the growth of rats..... 217
BENEDICT, STANLEY R. The determination of uric acid..... 233
BENEDICT, STANLEY R. A method for the purification of picric acid for creatinine determinations..... 239
MACDONALD, MARGARET B. The synthesis of water-soluble B by yeast grown in solutions of purified nutrients..... 243
MCCOLLUM, E. V., SIMMONDS, NINA, BECKER, J. ERNESTINE, and SHIPLEY, P. G. Studies on experimental rickets. XXIII. The production of rickets in the rat by diets consisting essentially of purified food substances..... 249
JACOBS, WALTER A., and HEIDELBERGER, MICHAEL. Strophanthin. I. Strophanthidin..... 253
GREENWALD, ISIDOR, and LEWMAN, GERTRUDE. The determination of the titratable alkali of the blood..... 263
GREENWALD, ISIDOR. The supposed relation between alkalosis and tetany..... 285
DOISY, EDWARD A., BRIGGS, A. P., EATON, EMILY P., and CHAMBERS, WILLIAM H. Evaluation of buffers of the blood..... 305
TATUM, A. L., and ATKINSON, A. J. Is asphyxia the cause of drug hyperglycemias?..... 331
LEVENE, P. A., and TAYLOR, F. A. On oxidation of tertiary hydrocarbons..... 351
BOGERT, L. JEAN, and MCKITTRICK, ELIZABETH J. Studies in inorganic metabolism. I. Interrelations between calcium and magnesium metabolism..... 363
BOGERT, L. JEAN, and KIRKPATRICK, ELIZABETH E. Studies in inorganic metabolism. II. The effects of acid-forming and base-forming diets upon calcium metabolism..... 375
BOGERT, L. JEAN, and TRAIL, RUTH K. Studies in inorganic metabolism. III. The influence of yeast and butter fat upon calcium assimilation..... 387
SHAFFER, PHILIP A. Antiketogenesis. IV. The ketogenic-antiketogenic balance in man and its significance in diabetes..... 399

BENEDICT, ETHEL M., and HARROP, G. A. The estimation of formic acid in the urine..... 443
UNDERHILL, FRANK P., and KAPSINOW, ROBERT. The comparative toxicity of ammonium salts..... 451
UNDERHILL, FRANK P., and KAPSINOW, ROBERT. The influence of water introduction upon blood concentration induced by water deprivation..... 459
HUBBARD, ROGER S., and MUNFORD, SAMUEL A. The excretion of acid and ammonia..... 465
VAN SLYKE, DONALD D., HASTINGS, A. BAIRD, HEIDELBERGER, MICHAEL, and NEILL, JAMES M. Studies of gas and electrolyte equilibria in the blood. III. The alkali-binding and buffer values of oxyhemoglobin and reduced hemoglobin..... 481
VAN SLYKE, DONALD D., HASTINGS, A. BAIRD, and NEILL, JAMES M. Studies of gas and electrolyte equilibria in the blood. IV. The effect of oxygenation and reduction on the bicarbonate content and buffer value of blood..... 507

No. 3. November, 1922.

HOPKINS, F. GOWLAND, and DIXON, M. On glutathione. II. A thermostable oxidation-reduction system..... 527
HAMMETT, F. S., and ADAMS, E. T. Note on a colorimetric method for the determination of small amounts of magnesium..... 565
PUCHER, GEORGE W., and CORI, KARL F. Metabolic disturbances in cats on a milk diet..... 567
HARDING, VICTOR JOHN, and GAEBLER, OLIVER HENRY. On the constancy of the creatine-creatinine excretion in children on a high protein diet..... 579
GREENWALD, ISIDOR, and GROSS, JOSEPH. Some sources of error in the determination of chlorides in blood and similar material..... 589
DAVIS, ALICE ROHDE, NEWTON, ELEANOR B., and BENEDICT, STANLEY R. The combined uric acid in beef blood..... 595
NEWTON, ELEANOR B., and DAVIS, ALICE ROHDE. The distribution of the combined uric acid in the corpuscles of beef blood..... 601
NEWTON, ELEANOR B., and DAVIS, ALICE ROHDE. Combined uric acid in human, horse, sheep, pig, dog, and chicken blood..... 603
UNDERHILL, FRANK P., and ROTH, S. CLEMENT. The influence of water deprivation, pilocarpin, and histamine upon changes in blood concentration in the rabbit..... 607
CAJORI, F. A. The use of iodine in the determination of glucose, fructose, sucrose, and maltose..... 617
SANDO, CHARLES E., and BARTLETT, H. H. Pigments of the Mendelian color types in maize: isoquercitrin from brown-husked maize..... 629
MCCLENDON, J. F. Chart for the conversion of colorimetric readings into hydrogen ion concentration..... 647

No. 4. December, 1922.

FALK, K. GEORGE, and MCGUIRE, GRACE. Studies on enzyme action. XXI. Banana gel and banana sucrase 655
DOX, ARTHUR W., and YODER, LESTER. Esterification of creatine 671
MYERS, VICTOR C. A colorimeter for bicolorimetric work 675
DOISY, EDWARD A., and BECKMANN, J. W. The relations existing between arterial and venous blood of the dog with special reference to the plasma chlorides 683
DENIS, W. The non-protein organic constituents in the blood of marine fish 693
UNDERHILL, FRANK P., and WAKEMAN, EDWARD T. The behavior of chlorides introduced into the blood under normal and nephritic conditions 701
UNDERHILL, FRANK P., and KAPSINOW, ROBERT. The influence of subcutaneous injections of indole and skatole upon the nitrogenous metabolism of the rabbit 717
JOHNSON, TREAT B., and BROWN, ELMER B. The preparation of nucleic acid from the nucleoprotein of tubercle bacilli (tuberculinic acid) 721
JOHNSON, TREAT B., and BROWN, ELMER B. The pyrimidines contained in tuberculinic acid. The nucleic acid of tubercle bacilli 731
OSBORNE, THOMAS B., and MENDEL, LAFAYETTE B. Quantitative aspects of the rôle of vitamine B in nutrition 739
BOGERT, L. JEAN, and TRAIL, RUTH K. Studies in inorganic metabolism. IV. The influence of yeast and butter fat upon magnesium and phosphorus assimilation 753
MALLON, MARGUERITE G., and CLARK, MAJORIE. Vitamine A content of lard obtained from hogs on a control ration 763
BOOTHBY, WALTER M., and SANDIFORD, IRENE. A comparison of the Du Bois and the Harris and Benedict normal standards for the estimation of the basal metabolic rate 767
BOOTHBY, WALTER M., and SANDIFORD, IRENE. Summary of the basal metabolism data on 8,614 subjects with especial reference to the normal standards for the estimation of the basal metabolic rate 783
LEVENE, P. A., and MEYER, G. M. On diacetone glucose 805
LEVENE, P. A. Introduction of benzylidene-1-ethyl-2-diazogluconate 809
